SUMMARY

Salesforce Certified Administrator currently taking Northwestern Full Stack Developer Bootcamp. Looking for a rewarding career in the IT sector. With knowledge of responsive design, development of the layout and usability of a website with HTML, CSS, Javascript and API. Currently going through Node.js, Express.Js and MySQL for back end. Also Studying for Salesforce Certified Platform App Builder Certification.

Eager to learn, easy going by nature and experience with being able to get along with both work colleagues and senior managers. Currently looking for a suitable graduate web developer position with a progressive employer.

Had previous background in medicine before perusing a career in Software Development/Salesforce.
